WEDNESDAY MORNING, MARCH 24.

THE Postmaster General has commenced lopping off the twigs first; and on Saturday several hundred notices of removals and appointments were sent through the mail, all of them to postmasters holding petty offices.

THE appointment of Mr. Thomas L. Tullock, who is secretary of the republican executive committee, as chief of the appointment division of the Treasury Department, is regarded in Washington by the Democrats as a positive indication that all the conservative and democratic clerks in the department are doomed to the official guillotine.

The Senate is making progress slowly on the Tenure-of-Office question. In the caucus Monday afternoon, after several short speeches had been delivered, a motion was made by a leading dent Grant for vacillation and inconmember, with a view of harmonizing sistency in his course with reference to the conflicting opinions, that the whole appointments, showing that after the question of repeal, modification and President had said all recommendations suspension be committed to the Judi- for subordinate appointments must cisry Committee, with instructions to come through the heads of departments present a new bill embodying certain he had made several appointment features which are to take the places of without the knowledge of any member the first and second sections of the Civil of his Cabinet. This motion was unanimously agreed to, with the understandmously agreed to, with the understanding that they would make a similar motion in the Senate next day, and the committee would thereupon prepare a measure allowing the President to appoint his Cabinet, and to make removals during the recess of Congress without towards with respect to the continuation of t out tendering his reasons therefor to the Senate, but requiring him, within thirty days after the meeting of the Senate in days after the meeting of the Senate in December, to send a list of all appoint-ments made during the recess, It is expected that the bill will embody the other features of the original act, and also a clause repealing the original law. The committee were to confer with President Grant, and inform him of the action of the cancus, and obtain his views of the subject, and, as far as pos-sible, make their action conform to his views. Another caucus will be held today, when the committee will report day, when the committee will report and present the iruits of its action, and, if satisfactory, will submit the bill to the Senate, when, of course, it will be passed, and sent to the House for concurrence. It may be considered a big work if the thing is disposed of this week. Adjournment will then follow, it is expected, within a fortnight from the present time.

Post-Prandial Women Talkers. New York has just had a novelty a press dinner, at which the rights of woman assumed the form of a privilege to man. Last Saturday evening eighty or ninety gentlemen—editors, reporters, magazinists, and correspondents-met nearly as many ladies, most of them representing the feminine literary talent of the metropolis, at a public dinner, in which the ordinary social dis-PUBLISHED EVERY TUESDAY, THURSDAY tinctions of sex were as utterly ignored and Saturday. as if the entire company consisted of

gentlemen.

The Tribunc says of it: The toleration of female presence during the post-prandial speeches at the Burn's dinner a few weeks ago in this city, was announced to the world as a startling innovation, for which the managers of the affair received much praise. The New York press much praise. The New York press had anticipated that innovation last year, however, by a "breakfast" to which the Sorosis Society was specially invited, and at which the ladies were not only allowed to keep their seats during the speaking that followed the eating, but were absolutely compelled to endure a five hours cannonade of rhetorical missiles, hurled directly at their heads from the sides of the room, by men who not only ignored their feminine frailty, but presumed upon a superhuman endurance which neither sex possesses. Flattering as such an acknowledgement of woman's

right and woman's power must have been to the Sorosis, the breakfast was, their prettiest, and be patient. There was a radically novel principle involved, however, in the Delmonico dinner last Saturday evening. The ladies not only listened to after dinner speeches, but they made after dinner speeches. More than this, the ladies were not inwore than this, the ladies were not invited to join the gentlemen; the gentlemen were not invited to join the ladies. The ladies and gentlemen were invited to join each other. Most astounding innovation of all—that which is most significant to those who are interested in the progress of woman's rights—the gentlemen did not pay for the ladies. With the natural generosity of theirsex, they allowed those ladies who chose to do so to pay for themselves. In all pro-liminaries of the dinner, and through-

WASHINGTON, D. C., March 22, '69. The Republican members of the Senate were in caucus to-day from ten to twelve, and from two to 3:30 o'clock. The morning session was devoted to discussion growing out of the introduction of a resolution suspending the act to the close of Grant's administration. The old arguments for and against suspension were repeated and the session came to an end without an advance in any direction. The debate showed everybody wanted to relieve the President from the check and embarrassment, and that a very decided majority were options. Were decided majority were options of the check and embarrassment, and that a very decided majority were options. The Methodist Episcopal Church of the United States, it is announced, will, next June, decide the question whether Ar the Cabinet meeting Friday last the subject of the various officers at home and abroad was discussed at the suspends the law till next winthat a new tenure-of-office bill, retaining the features of the present law and excluding all obnoxious provisions, must be carried through the Senate, and probably through the House. The proposed modifications are that the act shall not apply in any way to the Cabinet, and the President shall not be required to make out a case wherein certain per-

MALTHAM WATCHES

To Buyers of Watches Everywhere The greater part of the jewelers of the United States keep Waltham Watches, and

The greater part of the jewelers of the United States keep Waltham Watches, and cordially recommend them to their customers, notwithstanding the fact that less profit is made on these watches than on any others generally sold by the trade. The reason of this is, that the reputation or the Waltham Watch renders it an easy sale, and the result is, that, although the dealer does not make as much money on each individual watch as he may on the sale of other watches, he is still the gniner through larger and livelier sales. There are some, however among the trade, who do not give the Waltham Watch the hearty support which it deserves. This portion of the trade fancy there is more money to be made by dealing in watches about which the public are ignorant, and in which there is less competition, and are content to make an occasional sale of such waltham Watches, use that kind of language which leads the customer to buy just such a watch as is the most profitable for the dealer to sell.

For the information of persons about to buy a watch, and who may be unfavorably affected by the representations of those unfriendly to our watches, we call attention to the following suggestions:

Since the manuracture of watches was initiated at Waltham, the Company have made and sold about 440,000 watches. In every town and village of the country some wearer of a Waltham Watch may be found. Let the party about to buy ask this owner of an American Watch this question:

HAS YOUR WATCH GIVEN YOU SAT-ISFACTION?

We are not afraid to advise those wishing to buy a watch to guide themselves by the answer. Being satisfied as to the quality of the watch, the buyer has now only tosatisfy himself that the Waltham Watches are THE OHEAPEST as well as the best. On this head we have a few words to say:

It is a well known fact in manufacture, watches at a minimum cost. WE BE-ILEVE IN SMALL PROFITS AND A LARGE BUSINESS. This policy we have successfully carried out, and the result is, that to-day we manufacture twice as many watches as all the other

ing our production we have constainly improved its QUALITY AND ITS VARIETY. We have had the refusal of nearly all inventions intended to improve time-pirces, and have adopted all those, and those only, which have proved to be really valuable. We have retained in our employment every head of a department we have ever had whose services were of any importance to the Company, and our present corps of designers and master mechanics cannot be equaled in this or any other country. In addition to this we make gold and silver cases, not only for our own movements, but for those of other factories, ours being the only establishment that turns out watches complete in every respect.

As these Watches are for sale by the trade generally throughout the United States, and at a retail profit made: most reasonable by competition, the Company invariably deciline orders of a retail character.
